WATER RESTRICTIONS IN EFFECT

The Magnesia and Harvey Creek Intakes are severely impacted by debris flows caused by the recent heavy rainfall and winds. Due to Municipal access procedures, crews will not be able to investigate further until the safe working parameters can be met; hopefully early next week.

As such, all homes in the Village, with the exception of Sunset and Brunswick Beach, have been switched over to the Harvey intake. Please conserve water as much as possible over the next few days to ensure demand can continue to be met by the respective systems. Please note that there is currently no boil water advisory in effect at this time.

We thank you for your understanding and will provide updates as they become available.

WIND STORM & HEAVY RAINFALL WARNING

Residents are advised that the current wind storms and heavy rainfall will continue over the next few days. Please be vigilant of hydro or telephone wires fallen to the ground. If you are experiencing power outages, please contact BC Hydro.
