Not all compostable plastic bags are created equally. The way they biodegrade and the time it takes for this to happen can vary greatly (read this article for more information).

The use of a non-conforming compostable liner will result in contamination of the organics and diversion to the landfill. The receiving compost facility's two requirements for compostable plastic bags are:

1. The bags must be translucent **green** in colour **and**
2. Have the following certified compostable logo on them.

COMPOSTABLE
Biodegradable Products Institute | US COMPOSTING COUNCIL

Acceptable compostable bags are available for purchase at WCS's Beyond the Blue Box Community Depot in North Vancouver or through the Village Office. If you have any further questions about the suitability of compost liners to be used in the organics stream please feel free to give Waste Control Services a call at 604-986-9777. For more detail on the issue read the WCS bulletin here.

Avoid the confusion altogether and use origami newspaper liners instead. Three pieces of newspaper and a few quick folds will result in a custom organics liner for your kitchen compost bin.

The Village of Lions Bay is looking to develop ideas for the revitalization of the Lions Bay Beach Park (LBBP). To this end we are seeking volunteers to serve on an advisory group which will assist Municipal staff with public engagement and ideas for developing the park for the future.

The advisory group will be made up of three to five members with a diverse range of ages, backgrounds and interests. Meetings will be held approximately 4-5 times in the last four months of 2017.

All members of the community will be able to contribute to the Lions Bay Beach Park Revitalization Project through public feedback.

If you're interested in participating in the Advisory Group, fill out the following application form and submit it to office@lionsbay.ca by September 4, 2017.
