Message from the Bear Smart Community

Did you know bears don't need to hibernate if they have access to food?

To survive long winters, bears hibernate, or go into a deep sleep, usually for four or five months. During this time a bear's metabolism slows down by half, its heart rate drops from fifty beats per minute to ten beats per minute, and its body temperature drops by 3° to 7°C. But bears don't need to hibernate if there is access to food.

That's why it is so important that we keep the bears wild by not leaving food and other attractants outside in these fridge-like temperatures and adhering to the garbage schedule below.

Garbage and organics collection schedule remains in effect

7:30am - 9:00am: Bayview Place-Upper Bayview, Mountain-Timbertop-Sunset, and all streets leading off these (central Lions Bay above the highway).

9:00am - 10:00am: Highview-Oceanview, Panorama, Kelvin Grove Way, and all streets leading off these.

10:00am - 1:00pm: All other neighbourhoods (lower Kelvin Grove, Brunswick, central Lions Bay below the highway, etc.).

Please put your waste out as close to 7:30am, 9:00am or 10:00am as possible.

If you cannot comply with these times, you can drop off green-waste and garbage **6am – 8am** every Friday at the Works Yard (*excluding Statutory Holidays*)

Kudos to the Lions Bay Elementary Kids!

Bear Smart presented to the school children this week, and they really know their stuff! In true Lions Bay style, the children were curious, had lots of stories and asked some great questions. Thanks to our presenter Meg Toom and Vice Principal, Natalie Mendes for working with us - we had a blast!
