UPDATES FROM THE MUNICIPALITY

Beach Park Project Update – (Week 5)

Work continued this week at the Beach Park as part of the ongoing site improvements. Crews have been focusing primarily on-site preparation for the installation of the new playground equipment, which will be a key feature of the revitalized park area. In addition, drainage improvements are underway, including the replacement of an aging and tree root plugged drainage pipe to improve stormwater management and long-term site resilience.

These upgrades form part of the broader Beach Park Project, which aims to improve accessibility, safety, and overall enjoyment of this important community space. Residents can expect to see continued progress over the coming weeks as construction advances toward the next stages of the project.

The Village appreciates the community's patience and cooperation during this period of construction and looks forward to unveiling the improved park once work is complete.

The Olympics tiles made at Lions Bay Elementary in 2010 and recovered from the Lions Bay Beach Park before this year's renovations commenced, are available for retrieval through next weekend along the Council Chambers walk at the top of the steps at the municipal campus.

With help from the same expert who built the original platform 20 years ago, Public Works is updating its GIS (Geographic Information System) platform under a $45,000 Enhanced-911 grant. Some element locations, watermains for example, are found to be rough and requiring ground-truthing, but property owners and residents may find use and interest in the public layers available at **www.lionsbay.ca/services/gis-geographic-information-system.**

NEXT REGULAR MEETING OF COUNCIL:

Regular Meeting of Council (CLOSED) - November 18, 2025 at 6:00pm
Regular Meeting of Council (OPEN) Begins at 7:00pm
