

NORMAN BARMEIER

With a one-year term behind me and a subsequent acclamation for 2018 – 2022, I hope to shed some light on why I am back in the fray.

Originally, I ran for council in 2017 to both try my hand at politics and to contribute to the community in a practical way. My background working as an engineer for water supply projects in the Village gave me a firm appreciation for the infrastructure challenges we face.

My motivation to run again was strengthened by my interaction with residents over that year. For those that have reached out to me via text, or phone, or email, or for those that have taken the time to meet with me in person, you know that I am always happy to chat about issues and listen. What I heard was a sense of caring and concern, and a need for those concerns to be brought to council. I will continue to advocate for you and the issues that you care about.

This term I'd like to see timely execution of urgent infrastructure improvements, the roll out of a development permit application process that makes sense for Lions Bay, improved public engagement, an open mind to revenue generation ideas, and an eye on the long-term sustainability of Lions Bay.

We have a strong team in our administration and public works, and with an efficient and goal-oriented council we should see continued improvements in infrastructure and services throughout Lions Bay.

Regards,

Councillor-Elect, Norman Barmeier
