

THE MUNICIPALITY OF THE VILLAGE OF LIONS BAY

Lawn Sprinkling Permits

Water conservation levels are in effect from June 1, to September 30 every year. These conservation levels restrict the frequency and time of day during which residents may utilize municipal water for lawn sprinkling. The Village may authorize exemption permits in cases where the amount of water allowed would not be enough to keep your new lawn alive and you can apply for a lawn sprinkling permit if you are caring for a new lawn.

Permit Requirements

New lawns can require more water than provided under the watering regulations.

If you are applying for a lawn sprinkling permit:

- You must show a receipt for lawn seed or sod.
- Your permit is valid for three weeks from the date approval is given by the Village.
- Your permit, once issued, will allow you to water on a daily basis, however the permitted daily watering timeframe, as noted in the Village of Lions Bay Outdoor Water Use Bylaw No. 484, must be adhered to.

Permit Application Form

Complete the form on the back of this notice and submit it to the Village office along with your permit application fee.

Permit fees

Pursuant to Village of Lions Bay Fees & Charges Amendment Bylaw No. 490, the permit application fee is \$40. The Village Office accepts cash or cheque and the fee is non-refundable.
