MISSING PERSON

A large search for a missing Lions Bay woman has resumed this morning after crews were unable to find her yesterday. Lorraine Prebushewski was last seen leaving her home in Upper Kelvin Grove around noon on Sunday, and search and rescuers have said it is unclear what she had planned as there was nothing to suggest she intended to go hiking due to her mobility issues. Concern for her well-being is growing, especially with the possibility that she slept outside overnight. She recently moved

here from Saskatchewan and does not know the area well and may be a little despondent and/or disoriented.

If you have any information on the whereabouts of this missing person, please call 911.
