

## THE MUNICIPALITY OF THE VILLAGE OF LIONS BAY

---

Competition: LB-RFP-2020-03

RFP: Bayview Steel Superstructure, Timber Deck Driveway Bridge Rehabilitation

**Closing date:** September 16, 2020 4:00 pm

**Department:** Public Works

### **Document Title: ADDENDUM 1**

#### Summary Details:

---

1. The Municipality has received requests for the as-constructed drawings for the bridge. We have been able to retrieve these from the Ministry of Transportation and Highways, who originally installed the bridge. The as-constructed drawings (R1-161-120\_121.pdf) are available on BC Bid, the [Municipality's website](#), and via the following link:

[https://www.lionsbay.ca/sites/2/files/r1-161-120\\_121.pdf](https://www.lionsbay.ca/sites/2/files/r1-161-120_121.pdf)

---

2. We have received questions regarding the provision of access to the private residence during the rehabilitation of this bridge.

**Response:** The successful proponent will need to work with the Municipality and the resident who is a first responder to ensure he and his family have access to their home. Ideally, pedestrian access will be provided at all times; however, the Municipality recognizes that there are times where this will not be possible. We encourage proponents to factor in as much access as possible during construction.
