PRV Tie-in Water Outages Scheduled to Occur March 15, 17, and 22.

Workers are nearing completion of the underground piping at the three PRV sites and will begin pressure testing and disinfecting their works prior to performing the connection to the potable water system. As it now stands, the tie-in's will occur in the following order:

1. **Monday, March 15, 2021**, the PRV at the School will be tied in. This outage is expected to affect **all residents on Stewart Road, and residents between 239 and 325 Bayview Road.**
2. **Wednesday, March 17, 2021**, the Control Valve on Mountain Drive will be tied in. This outage is expected to affect **residents between 168 and 250 Mountain Drive.**
3. **Monday, March 22, 2021**, the PRV at Upper Bayview will be tied in. This outage is not expected to impact any residents; however, should things change, notice to the affected residents will be provided 48 hours before any anticipated outage.

Residents who will be affected by the water interruptions will receive a hand delivered notice informing them of the exact date and time of the interruption 48 hours before the scheduled work.

Dirty or Rust Coloured Water and Air Trapped in Lines

The tie-in of the new PRV's to the existing water system will require watermains to be shut off and cut. During this process, turbulence will stir up iron and mineral deposits in the mains leading to dirty or rust coloured water. Air will also enter the watermains. Public Works crews will be on site to flush the watermains which will help eliminate discoloured water; however, some residences are still experiencing dirty water or air in their lines.

If this is the case, run your cold water taps for a few minutes until the water is clear. If it is not clear the first time, wait a few minutes and repeat this process until your water runs clear and free of air.

We apologize for the inconvenience and thank you in advance for your patience and understanding. If you have any questions or concerns please

contact Public Works at works@lionsbay.ca.

**The Tidewater Way Railway Crossing in Kelvin Grove will be
COMPLETELY CLOSED
Tuesday, March 30, 2021 from 6:00 am to 7:00 pm**

This closure is required in order to perform a complete rebuild of the railway crossing. The project will include the replacement of existing rail ties, the re-leveling of the tracks and adjacent road approach paving. ***The work is weather dependent and exact date may change. We will notify you of any changes as we get closer to the date of the works.***

The work requires a complete closure of the road where it intersects with the railroad tracks – a partial closure is not possible; however, local pedestrian traffic will be permitted to cross with the aid of flag persons who will be stationed at the crossing.

Residents who require vehicular access to or from their neighbourhood on March 30th will need to park their vehicles on the east side of the railway tracks at the Kelvin Grove parking lot on the evening of March 29th and when they return in the afternoon or evening of the 30th.

Barricades with signage will notify property owners, residents, and drivers of the closures. If you have contractors working at your property, please be sure to pass along this notice to them as soon as possible.

If you have questions or concerns please contact Public Works at works@lionsbay.ca.
