To clarify last week's 3-PRV project update, substantial completion has been achieved with the Industria contact; however, there is still much to do on this project. Despite submitting plans with BC Hydro in November of last year, their work to connect the electrical at the PRV sites is incomplete. This is the key factor holding up the paving of the roadways at all three sites. Additional remaining works include landscaping which will be done by Public Works Staff and vinyl wrapping the kiosks which will have to wait until all other works are done.

For more information on landscaping and to provide feedback on screening with vinyl wraps:

Parking & Bylaw Enforcement

This season is proving to be busy already for our Bylaw officers. We thank you for your patience as they attend to all the issues arising as the weather changes.

If you have an issue to report the best method is to send them an email via bylaw@lionsbay.ca.

If it's an urgent matter, call 604-834-3404, but consider if it's a matter for RCMP at 604-892-6100 or 9-1-1.

As a reminder, parking meters have been installed for the season at the Sunset Trailhead, Lions Bay Beach Park and Kelvin Grove Beach Park parking lots. Residents can park free at the Sunset and Kelvin Grove locations with their current, valid parking permit displayed in the front left side of their windshield. Residents should also be cognizant of street parking signage indicating Permit Required.

If you don't display your permit, or park in a no parking zone or near a fire hydrant, our Bylaw Enforcement Officers will have to treat the vehicle as being parked illegally and issue a bylaw contravention ticket. The penalties continue to be steep this year at \$195 if you don't have your permit displayed (\$100 early discount payment; \$240 late pay amount).

If you require additional passes for your family members or secondary suite renters, you can purchase them for \$40 from the Village Office. If you need contractor passes for ongoing construction (\$40 for 3 months) or free daily guest passes for members of your slowly expanding bubble, please contact the Office to make arrangements. **Please note that any daily guest passes must be filled out in ink and cannot be re-used.** Any written in pencil or erased, scratched out and re-used will not be accepted. Please ensure your guests understand these restrictions so we can ensure the system is not abused.

TRANSPORT
2050 | TRANS LINK

Help shape the future of how we move and live!

TransLink has launched Transport 2050 Phase 2 engagement. From April 19 – May 14, share your input on draft goals and three transformative actions: people-first streets, next-generation rapid transit, and automated vehicles. Visit transport2050.ca

About Transport 2050

TransLink is leading the development of Transport 2050, the region's next 30-year transportation strategy. As part of their largest-ever public engagement, they want to involve the region in a discussion about the future of transportation. Whether you walk, bike, roll, take transit, or drive, Transport 2050 will impact how you move.

Engage with us in Phase 2

During Phase 1 in 2019, the region shared its values and ideas for the future of transportation. Now in Phase 2, they're proposing draft goals and three actions that could help transform the region:

- People-first streets that invite walking, biking, and rolling
- Fast and frequent rapid transit that's a competitive choice for most longer trips
- Automated vehicles that provide convenient access to car trips, without adding to congestion

For more information, see the [Discussion Guide](#).
