Don't wait until the snow, black ice, rain, fog, extended periods of darkness and colder temperatures hit before you're ready. Get your winter tires on your car now! Winter tires are a legal requirement on B.C. highways during the winter driving season. While tires with the mud and snow symbol meet the minimum legal requirement, tires with the 3-peaked mountain and snowflake symbol offer the best traction on snow and ice, and when temperatures fall below 7°C.

For more information on preparing your vehicle for winter download the [Prepare Your Vehicle For Winter](#) brochure and visit [ShiftIntoWinter.ca](http://ShiftIntoWinter.ca) for the latest tips and information on winter driving.

**November 6th through to November 24th**

Public Works will be flushing the Village's watermains between November 6 and November 24, 2017. Flushing will take place Monday through Friday between the hours of 7:30 AM and 3:00 PM. Though locations and dates may change due to weather or other unforeseen circumstances, our intent is to adhere to the following schedule:

Sunset/Bayview/Mountain/Timbertop:	November 06 - November 10
Oceanview/Upper Kelvin Grove/Isleview:	November 13 - November 17
Brunswick Beach/Lower Lions Bay/Kelvin Grove:	November 20 - November 24

The flushing of water mains is necessary to remove sediments that gradually deposit in the pipes over time. The Village is mandated to flush our watermains twice a year to comply with our drinking water treatment permit to operate issued by Vancouver Coastal Health.

During the flushing period, residents are advised to avoid using water to the extent possible and to place their filters, softeners and other water treatment equipment in 'by-pass' mode. Use of water during flushing will draw into the residential system the agitated sediment thereby requiring more rigorous clearing of your water lines. Water drawn in during flushing can also lead to clogged filters and screens and may discolour laundry. During the flushing period the water will remain safe and potable, however, there may be brief periods of discoloration, cloudiness and temporary pressure fluctuations. The Village of Lions Bay accepts no liability for inconvenience or damages caused by low pressure or discoloured water use during its flushing program.

After the flushing is completed, we advise residents to clear their water lines. To do this simply let your cold water tap (remove screens/aerators on tap) closest to the incoming water line run until the water flows clear prior to returning any water treatment equipment back on line.

The Village of Lions Bay thanks you for your co-operation during this seasonal flushing program.
