# How to have a Nature Friendly Halloween

Single-use plastics, dangerous decorations, palm oil in treats, microplastics... it's time to take a fresh look at Halloween and get creative about how we celebrate this popular holiday. Together we can make it safer for our wildlife and still celebrate in spooky style!

Tips on how you can make a difference are in our Lions Bay Bird Friendly piece published [HERE](#)

## A message from Bear Smart

Pumpkins are an attractant.  
Please keep them indoors till 4pm on Halloween  
and bring them inside by 10pm that night.  
A fed bear is a dead bear.

As Halloween approaches, images of scary bats become commonplace. This is the perfect time of year to counter bat myths and do something to help bats, by taking part in International Bat Week.

## Time to Sow!

Please join the Lions Bay Butterflyway team for a free seed-sharing and planting workshop on **November 4** at 10 am at the Village Hall. (400 Centre Road) We have collected lots of seeds from our pollinator-friendly plants and we would love to see them distributed throughout the village to help support local bees, butterflies, flies and beetles that depend on nectar and pollen for their development. Come and learn some of the fundamentals of how to grow native plants from seed. We will provide seeds, pots, soil and scones. All you need to provide is enthusiasm and the ability to nurture some seeds throughout the winter. If you would like to take seeds away with you, bring some envelopes. In the spring you can plant your own pollinator garden or donate your seedlings to other gardeners. This is an amazing way to help keep our local ecosystem thriving!
