**WATER MAIN
FLUSHING
PROGRAM**

For the entire week starting **Monday November 27th**, Public Works will be conducting mandatory watermain flushing between 8 a.m. and 3 p.m.

Why do we need to flush watermains?

Mineral deposits, biofilm and sediment that accumulate in watermains over time need to be removed by regular high-velocity flushing.

Do residents need to do anything?

During flushing, residents may experience discoloured water and pressure fluctuations. Residents are advised to avoid using water as far as possible when a given zone is being flushed (signs will be placed), because while the water remains safe and potable, use during flushing will draw suspended solids into the house system, which can clog water filters, softeners and tap aerators, discolour laundry and taste wrong.

After flushing is completed in your zone, clear water lines by running the cold water tap closest to the incoming service line (remove screens/aerators on the tap). The municipality is required by the health authorities to perform regular flushing and accepts no liability for inconvenience or damage caused by low pressure or turbid water use.

The Village of Lions Bay thanks you for your understanding and patience during flushing. For information, questions or concerns, please contact Public Works at 604-921-9833 or works@lionsbay.ca.

The Village of Lions Bay is committed to supporting initiatives that enrich the Community through the Village's Municipal Grant In Aid Program. Applications are now open for interested groups to apply for support through financial or in-kind Project/ Services/ Events/ Program grant by completing the Municipal Grant in Aid Application form and submitting it to the Village Office **by December 15th**.

This form may also be obtained on our [website](#). If you have any questions, please call 604-921-9333 or email accounting@lionsbay.ca.
