UPDATES FROM THE MUNICIPALITY

LIONS BAY BEACH PARK REVITALIZATION PROJECT UPDATE

(Week 15)

Construction at the Beach Park continues to make steady progress this week. Plumbing work is currently underway in the new washroom building, marking an important step toward bringing this facility closer to completion. Installation of the granite stair treads has also begun, and the results are already impressive. The stone surfaces catch and reflect the sunlight, adding both durability and a high-quality finish to the site.

The project team is awaiting delivery of the structural columns that will support the roof of the washroom building. Once these materials arrive, work on the building construction can continue.

Thank you to residents and visitors for their continued patience as construction progresses. Further updates will be shared as milestones are reached.

Coming Soon: 2026 Citizen Satisfaction Survey

In early February, the Municipality will be launching a 2026 Citizen Satisfaction Survey, providing residents with an opportunity to share their perspectives on

municipal services, priorities, and overall community experience.

The survey is designed to gather meaningful feedback on how municipal services are performing and where improvements may be needed. The information collected will help staff better understand community priorities, identify strengths, and inform future planning and service delivery decisions.

As part of a commitment to good governance and continuous improvement, the Municipality's goal is to conduct this type of survey every two to three years. Repeating the survey on a regular cycle allows for benchmarking over time, helping to measure progress, track trends, and ensure that municipal services continue to align with community expectations.

All survey responses will be completely anonymous, encouraging open and honest feedback from participants. The results will be analyzed in aggregate and used to support evidence-based decision-making and operational planning.

Further details about the survey, including how to participate, will be shared as the launch date approaches in early February. Residents are encouraged to take part and help shape the future of municipal services in the community.

In accordance with the [Village of Lions Bay Trees, Views, and Landscapes Bylaw No. 393](#), 2007, the cutting of trees on Municipal Property during active bird nesting season, which is between **March 26th and August 16th** each year, is prohibited.

If you want to do some tree work and those trees are on Municipal property, you'll need to apply for a tree cutting permit to obtain Council approval. The **March 3rd Council meeting** is the last meeting you can get your application approved so that your work can happen before the March 26th deadline - after that, you're going to have to wait until mid-August unless you get Council dispensation to undertake a nesting survey with a registered biologist at your cost to establish there are no bird nests in the vicinity of the trees you wish to cut.

Skip the rush and submit your application As Soon As Possible! Here's what needs to happen:

1. Your application needs to be completed and turned in no later than **January 30th** at **4:00 PM**.
2. Public Works will need to assess the trees so the trees being cut must be marked so that staff know exactly which tree(s) are being worked on.
3. For the Tree Committee to meet, notice must be made in the Village Update 8 days prior to their site meeting. Once the tree committee have made their recommendations, Office staff will prepare the application for submission to the Council agenda package.
4. If approved by Council, a permit will be provided to you once a \$500 damage deposit has been received by the Village Office, a copy of the tree cutting company's Certificate of Insurance naming the Village of Lions Bay as an additional insured for \$5 million, as well as their WorkSafe BC Certification.

There is a lot to prepare and organize and schedule - so please take note of the timeline!
