

# Village Update

## SPECIAL EDITION

May 4, 2026

## UPDATES FROM MUNICIPALITY

**May 3-9, 2026** is the provincial Emergency Preparedness Week. In this spirit of preparedness, there will be a test of the Alertable system on **Tuesday, May 5 at 10am**. It will also carry a message to remind us of ways that we can get ourselves ready for an emergency situation.

Alertable provides a smart alert system to notify you of significant local community emergencies with instructions on what to do and where to go in order to stay safe. It also can notify you of specific events like earthquake early warning, fire, flooding, road closures and many other events in neighbouring communities, from advisory alerts to critical alerts that may require immediate action.

Alertable is customizable in terms of settings, locations, language and accessibility and the type of communication device you would like the alert sent to (iOS, android and landlines). It is free to download and is used by most of the communities in BC. Lions Bay School will be using it in addition to emails and texts to alert parents to emergency student pickups.

It's free, easy to download and use. The link to the app is <https://alertable.ca>

**If you are not yet on Alertable, please do yourself and your family a favour and download it today. Stay aware and plan ahead.**
