

“We need to work together and push for good value for the tax dollars of our citizens. That is our most important role as Council.”

My experience

- 30+ yr. commercial banking career, active municipal knowledge as your Mayor of 4 years and now 8.5 current years as Councillor.

Ron McLaughlin for Mayor

What I promise...

- To support responsible tax dollar spending;
- To strive for cohesion at the Council table;
- To listen openly to community member concerns;
- To bring your voice to the council table;
- To secure our financial & infrastructure security;
- To seek grant opportunities;
- To complete village infrastructure projects;

I remain committed to our Village Policies, Bylaws, and Village Charter, all of which are designed to keep us on an even keel through current and future challenges.

Achievements of Council Over My Term as Mayor

- 10% Infrastructure Levy put forward by me and initiated the first year in office. Fund now almost \$1.5 million
- Improved Lions Bay financial position (cash) by \$3.1 million through creation and sale of lots, now with homes on them.
- \$5 million Infrastructure projects completed on time and on budget (Harvey water tower, Kelvin Grove sewer treatment plant)
- Grants won for Infrastructure projects ready to go totaling \$1.84 million, with maximum Village contribution of \$358K. (Beach Park, Klatt Building, Community improvements/Translink.)
- Via a team effort of residents, council and staff, successful conversion from Urban to Rural status.
