

My Commitment to the Village of Lions Bay

As I seek re-election as Councillor for the Village of Lions Bay, I believe in continued learning, respectful collaboration, and responsible leadership.

Since attending the Newly Elected Officials Workshop in my first term in 2018, I have continued participating in LGLA workshops and information sessions through LMLGA and UBCM. These opportunities provide valuable insight into local government and allow elected officials to learn from the experiences and challenges of other communities. I believe ongoing education is an important part of serving effectively, and I encourage all members of Council to take advantage of these opportunities.

I also believe effective governance requires putting personal agendas aside and working cooperatively for the overall good of the community. Every member of Council brings different perspectives and opinions to the table. Through respectful discussion, thoughtful consideration, and collective decision-making, we can work toward the best outcomes for Lions Bay. Once Council makes a decision by majority vote, it is our responsibility to respect the decision and support the work of Council.

Transparency and accountability are equally important, along with an understanding of our legal and ethical obligations.
